

# MADE TO MEASURE MURAL PROCESS

In the market for a badass mural? Our designers don't just stretch artwork to fit your space. You give us your vision and dims, we custom design to-scale layouts for your unique space, and you select the option you like best. Read more about how it works below!

## measure

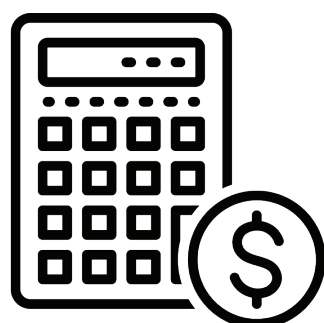

### Client provides:

- Width x height dimensions of the wall(s) you want to cover, as well as the dimensions and location of any doors, windows, or built-ins, etc. We accept dimensions in the form of CAD drawings, hand-drawn sketches, and photos with measurements written in.

## quote

### BCS provides:

- Quote based on client provided dimensions

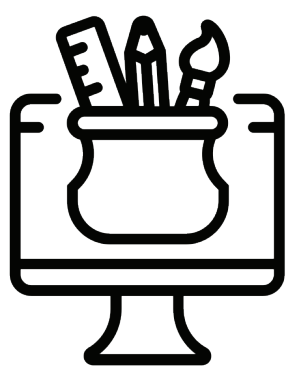

## design

### Client provides:

- Nonrefundable deposit

### BCS provides:

- Series of digital layout options designed at 10% scale of provided dimensions

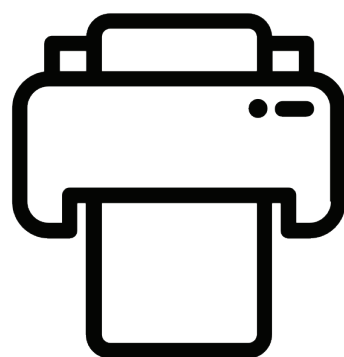

## production

### Client provides:

- Layout selection
- Printed strike off approval
- Confirmed site measurements
- Final Payment

### BCS provides:

- Printed strike off of selected layout for color approval

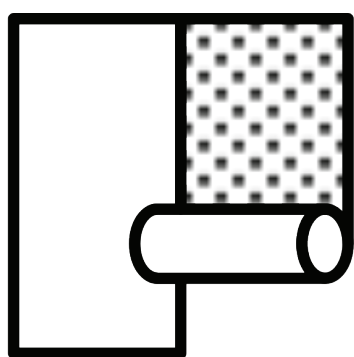

## installation

### Client provides:

- Installer

### BCS provides:

- Your badass mural in 53" wide untrimmed panels with 2" overlap for double cutting
- Installed as a straight across match
- Overage added to trim paper to fit
- Install guide with visual and written instructions
